ENTRY INTO POLITICS

Political Journey

Shri. Konda Vishweshwar Reddy started getting interested in politics because he grew up around it. His grandfather's house was where many Telangana leaders and activists met. He saw the problems people in Telangana faced, and it made him want to help them. Even though he had a successful career as an engineer and teacher in the United States, he decided to come back to India and help his community. He did a lot of social work and worked on healthcare projects. He also spoke up for Telangana's rights. This made him want to become a politician. He wanted to make life better for the people he would represent. So, he began his journey into politics.
